

„Development of the road infrastructure through construction of bridge to connect the rural areas in the municipalities of Bosilovo, Novo Selo and Strumica“

South-East Region is situated on the end of the southeast in Republic of Macedonia. The region borders with Greece to the south, Bulgaria to the east and with East and Vardar region to the north. The infrastructure in the South-East planning region can be assessed with medium level of development.

Evenly developed infrastructure, modern roads, and relatively safe conditions for traffic are the basis for accelerated sustainable development at local as well as at regional level in every area of human life.

The purpose of this project is construction of a bridge on the road between v. Borievo with v. Koleshino in length of 30.7 meters and a width of 6 meters.

This bridge will create conditions for improved communication between residents of rural areas of the Municipalities of Bosilovo, Novo Selo, Strumica, easier transfer of agricultural products and improved accessibility to tourist localities under the Belasica Mountain region.
